

A Voice for Virginia's Water and Waste Authorities

VWWAA's Mission is to Promote and defend the interest of Virginia's water and waste authorities by:

- Monitoring Virginia General Assembly legislation affecting authorities
- Providing a network for the effective dissemination of information to and from the membership
- Becoming a strategic resource as an association representing authorities regarding legislation, regulations, and other issues that are precedent-setting at the local level
- Becoming a strategic voice to proactively change and improve the Act so that we can be more responsible to customers and communities

VWWAA was created by water and wastewater authorities throughout Virginia, all with the common goal to preserve our collective rights as public water and sewer service providers. We care about the environment, our community, our water and wastewater services, and our customers.

“VWWAA brings Authorities together, to preserve the Act’s purpose and enhance its strength, all for the betterment of the Authorities and their public water and sewer systems throughout Virginia.”

Any authority organized under the Virginia Water and Waste Authorities Act, Virginia Code 15.2-5100 et. seq., is eligible to be an Active Member of the association.
